# How To Use this Catalog

---

## What Information Does This Catalog Contain?

---

This catalog lists hazardous and solid waste documents released by the U.S. Environmental Protection Agency's (EPA's) Office of Solid Waste (OSW). It is a select list of publications that are frequently requested and is not a comprehensive list of all documents available. This catalog does not list documents originating in other EPA offices. For information on accessing additional publications on hazardous and solid waste, see the "Other EPA Resources" section.

## What Is New in this Edition of the Catalog?

---

This edition of the catalog contains newly released publications and is current through August 15, 2004. These new titles appear in bold.

## How Can I Find Specific Information in the Catalog?

---

There are a number of ways to find a particular document or research a subject area through this catalog. The following examples should help you get started:

- **If you have a document title**, use the Alphabetical Listing of Titles. There you will find an abstract and the order number, as well as information on what organization provides the publication. Ordering instructions can be found in the Ordering Information section.
- **If you have a document number**, use the Numerical Listing of Publications to find the title. The section is divided into three different lists for documents distributed by OSW, the National Technical Information Service (NTIS), or the U.S. Government Printing Office (GPO).
- **If the document you're looking for is not included in the catalog**, contact the OSWER Docket Team for more information.

## How Do I Order a Document?

---

Documents listed in this catalog can be ordered from one of three sources: OSW, NTIS, or GPO. You must use the appropriate order number for each document as specified in the Alphabetical Listing of Titles. Ordering information can be found under the Ordering Information section. In some cases, government agencies can receive documents free of charge.

Documents marked with an asterisk are available on the Internet, and not in paper format at this time. However, if you do not have access to the Internet, either at home, at work, or through your school or public library, please contact the OSWER Docket Team. Staff will print out one paper copy and mail it to you.

## Can I Access OSW Documents on the Internet?

---

OSW has placed a wide variety of information about hazardous and nonhazardous waste on the Internet and on Bulletin Board Systems (BBSs) for access and retrieval by the public. The information posted includes consumer information, supporting materials for rulemakings, policy and guidance documents, and data files from EPA's hazardous waste databases.

Access OSW materials on the EPA Public Access Server at <[www.epa.gov/osw](http://www.epa.gov/osw)>.

*Federal Register* notices relating to the Resource Conservation and Recovery Act (RCRA) and dating back to October 1994 are available on the EPA Public Access Server at <[www.epa.gov/fedrgstr](http://www.epa.gov/fedrgstr)>.

In addition, EPA maintains several free electronic mailing lists (list servers). Subscribers receive electronically mailed copies of documents as they are published. Some OSW-related mailing lists are EPA-WASTE (hazardous and solid waste *Federal Registers*), and EPA-PRESS (Environmental Protection Agency press releases).

## **Where Can I Find Regulatory Information?**

---

The EPA Dockets (EDOCKET) is an electronic public docket and on-line comment system designed to expand access to documents in EPA's major dockets. Dockets contain *Federal Register* notices, support documents, and public comments for regulations the Agency publishes and various non-regulatory activities. EDOCKET <[www.epa.gov/edocket](http://www.epa.gov/edocket)> allows you to search, download and print the documents in a docket, as well as submit comments online.

# Additional Sources of EPA Information

## EPA Publication Numbering System

Hazardous and solid wastes are managed by several different statutes. EPA is organized into offices reflecting the major statutes. Thus, waste management information is available from several different offices. The primary source of hazardous waste information is the Office of Solid Waste and Emergency Response (OSWER), which is divided into several major offices. The Office of Solid Waste (OSW) produces this catalog and the documents described in it. All documents produced by OSW are assigned EPA publication numbers in the 530 series.

The EPA publications numbering system provides easy identification, tracking, and dissemination of EPA documents. Each publication number tells you which office is responsible for producing it, and includes a specific office/division within the organization, an alpha descriptor of the document type, and the publication year.

## Notice to Customers Making Payment by Check

*Authorization to Convert Your Check:* If you provide us a check to make your payment, your check will be converted into an electronic fund transfer. "Electronic fund transfer" is the term used to refer to the process in which we electronically instruct your financial institution to transfer funds from your account to our account, rather than processing your check. By providing your completed, signed check to us, you authorize us to copy your check and to use the account information from your check to make an electronic fund transfer from your account for the same amount as the check. If the electronic fund transfer cannot be processed for technical reasons, you authorize us to process the copy of your check.

*Insufficient Funds:* The electronic fund transfer from your account will usually occur within 24 hours, which is faster than a check is normally processed. Therefore, make sure there are sufficient funds available in your checking account when you send us your check. If the electronic fund transfer cannot be completed because of insufficient funds, we may try to make the transfer up to two times.

*Transaction Information:* The electronic fund transfer from your account will be on the account statement you receive from your financial institution. However, the transfer may be in a different place on your statement than the place where your checks normally appear. For example, it may appear under "other withdrawals" or "other transactions." You will not receive your original check back from your financial institution. For security reasons, we will destroy your original check, but we will keep a copy of the check for recordkeeping purposes.

*Your Rights:* You should contact your financial institution immediately if you believe that the electronic fund transfer reported on your account statement was not properly authorized or is otherwise incorrect. Consumers have protections under a Federal law called the Electronic Fund Transfer Act for an unauthorized or incorrect electronic fund transfer.

**Privacy Act** – A Privacy Act Statement required by 5 U.S.C. § 552a(e)(3) stating our authority for soliciting and collecting the information from your check, and explaining the purposes and routine uses which will be made of your check information, is available from our internet site at <http://www.ntis.gov/help/eft.asp>, or call 1-800-553-6847 or (703) 605-6000 and request a copy of **NTISPR-1076**. Furnishing the check information is voluntary, but a decision not to do so may require you to make payment by some other method.
