¹ A “formal award of a degree” means that a formal document is awarded to the student, and is a notice that the award has been conferred by a college, university or board of trustees and appears permanently on the student’s transcript. Formal awards generally do not include continuing education credits or certificates, certificates of completion, or other forms of recognition issued by departments or individual faculty members, including most “professional development sequences.”

² Most student services, advising and counseling, administrative activities, and co-curricular activities do not have an instructional mission, research, or public service mission.

Program Listing. Each public university will submit a list of program changes annually on the last day of July. It may submit some individual changes before the end of July. Appropriate changes to the program inventory will be made. The IBHE staff will reserve the authority to advise that a change is inconsistent with common practices or definitions in higher education and recommend corrective action. (E.g., if a specialization were added that is commonly considered a major, the staff would recommend that the institution seek approval for a new program in the future.)

Reasonable and Moderate Extension (RME). An RME request consists of a brief description of the proposed changes. Based on criteria related to program objectives, clientele and resources, the staff will determine if the proposed change is a reasonable and moderate extension of existing program authority.

Board Action. A fully developed proposal will be submitted. The staff will review the proposal and formulate a recommendation. The Board will formally approve or deny.
