BS in Accounting

The College of Business offers a contemporary business program in **Accounting**. We combine academic rigor in the field of business and commerce, with external projects, internships, and other experiential activities, which enable our students to apply classroom theory to real-life business situations. CSU's College of Business is accredited by the Accreditation Council for Business Schools and Programs.

Mission

The mission of the College of Business is to promote quality business education that is learner-centered and technologically responsive to a culturally and economically diverse student population. Through its programs, the College is committed to developing students by:

- Providing foundations in business for students who have the ability to, and desire to, learn.
- Producing graduates who are responsible, discerning, ethical, and informed citizens with a commitment to lifelong learning, business leadership, entrepreneurship, service, and being a change agent locally and globally.
- Fostering a collegial environment that values the personal growth and academic success of individuals through its teaching, research, service, and entrepreneurial initiatives.
- Supporting other university academic programs by collaboration and providing business instruction to enrich their curricula.

Vision

Our vision is to be an outstanding and transformational learning center committed to the development of a culturally and economically diverse student population that prepares students to change lives by leading in their respective disciplines and communities.

Highlights

The College of Business offers a Bachelor of Science degree in Business and Administration, with a concentration in Accounting. The accounting student explores the fundamentals of accounting in two introductory courses and completes a ten-course sequence of higher-level courses that cover financial accounting theory, cost accounting, auditing, advanced accounting topics, federal income tax, business law, and accounting information systems. The typical accounting graduate enters the profession as a staff accountant in a public accounting firm, corporation, or governmental unit. Students may aspire to positions such as senior accountant, manager, controller, comptroller, or partner of a CPA firm.
